FOR AMAZON BRAND OWNERS

Brand Registry gives you tools. Not protection.

The tools only work when someone uses them.

Here is the 15-minute weekly routine I'd give any brand owner.

AMAZON'S OWN WORDS

"Detect and report." Someone still has to do the reporting.

Why Amazon Brand Registry?

Amazon Brand Registry is a free program that helps you protect and grow your brand, even if you don’t sell in the Amazon store.

Secure your brand

Detect and report suspected IP infringement with our powerful tools.

Amazon's systems block a lot. But they don't know your approved title, your price floor, or which sellers you allow.

WHY IT MATTERS MORE NOW

More hands can touch your listing this year.

1

Every offer is now in the Featured Offer race

Amazon removed the eligibility step from July 2026. A new seller can win the sale on day one.

2

Your page can change without your edit

Other sellers' contributions and Amazon's own systems can update titles, images and details.

3

Q4 traffic is the most expensive of the year

The worst time to send ads to a page someone else changed.

Every Monday · 15 minutes

5 checks. Top ASINs first.

1. Offers on your ASINs
2. New sellers on your listings
3. Detail-page edits you didn't make
4. Report a Violation follow-ups
5. Who shows up on your brand name

CHECKS 1–3 · THE LISTING

Look at the page the shopper sees.

CHECK	WHAT TO LOOK FOR
1 · Offers	Who holds the Featured Offer, and at what price? Anyone under your price floor?
2 · New sellers	Any seller you didn't authorise? Test buy first, then report with evidence.
3 · Page edits	Title, bullets, main image and variations vs your approved copy. Restore what changed.

Swipe for 4-5 →

CHECKS 4–5 · THE FOLLOW-THROUGH

A report you never follow up is a wish.

CHECK	WHAT TO LOOK FOR
4 · Report a Violation	Open Submission History. What's still open, what was rejected, what needs more proof?
5 · Brand-term ads	Search your brand name on Amazon. Is your own product first, or a competitor's ad?

Write down what you found. One owner, one action, before Friday.

BEFORE Q4 TRAFFIC PEAKS

Registry is the lock. The routine is checking the door.

TELL ME

When did you last search your own brand name on Amazon?
